

The Declaration of the People of the United States of America

Due to the course of human events it has now become necessary for us, the people of the United States of America, to dissolve the political bands which have connected us with those that have been empowered to represent and to serve the people of this great nation. We believe out of a decent respect to the opinions of mankind, that it is required of us that we declare the causes which impel us to this separation.

- They have abused the powers that have been entrusted unto them and they have corrupted the very foundation of our Government*
- They have placed their own personal ambitions and desires above the interests of the people that they were elected to serve and to represent*
- They have manipulated and misused the laws, regulations, and tax codes of this nation for their own personal and political gains*
- They have provided political favors and beneficial legislation for individuals, corporations, organizations and special interest groups with the expectations of receiving financial support or other undeserved rewards for themselves, their friends and their political parties in return*
- Their use and oversight of taxpayer monies has been reckless, wasteful, self-serving and could easily be construed as deceptive, fraudulent or possibly embezzlement*
- They have displayed a level of fiscal irresponsibility that is incomprehensible and have shown a disturbing lack of regard for the future financial security of this Country and of its People*
- They have placed an unbearable financial indebtedness upon the future generations of this nation that is unjustified and they have done so without the consent of the People*
- They have attempted to hide their actions and deeds such as bribery style politics, arm-twisting persuasions and other unscrupulous coercions from the view of the People of this great Nation with their use of back room politics and closed door meetings*
- They have striven to gain financial wealth and additional political powers with the use of these unacceptable practices and behaviors for themselves, their friends and their political parties and to seize greater authority for the federal government by removing it from People and the individual States in which they live*
- This expansion of the size and scope of our federal government appears to be in direct conflict with our founding documents and attempts to remove individual liberties and freedoms from the People thus providing the federal government with much greater unauthorized control over its People*
- These actions bring into question the Constitutionality and legality of such matters as well as the legalities of the individual acts themselves; It appears that they have a total disregard for the Constitution, its meaning and the intent of our founding fathers; Some have been so bold as to have made public statements that confirm these accusations; As a result, questions of their true loyalty and intent now arise*
- They have ignored their primary federal responsibilities to secure our borders and enforce the existing immigration laws at a time in which our enemies wish to enter our country and do us harm*
- They have weakened our national security with the unjustified and unbecoming criticism and persecution of our intelligence agencies, our military forces and its leaders as they diligently carry out their duties to protect and to serve the People of this great Nation during a time of war*
- It has become apparent that there are those in our government that are attempting to aid and to give comfort to our enemies while we are still at war; It is their intent to treat these enemies in an unprecedented preferential manner that is unfitting and unwarranted; They wish to afford them with privileges that are reserved for United States citizens instead of maintaining the traditional military procedures that are available*
- They have shown questionable behavior by their willingness to expose military intelligence information that could assist our enemies in their efforts to harm America during this time of war*
- They have utilized the media outlets of our nation to overwhelm the people with biased, misleading, and false information; It has become apparent that this strategy is an attempt to persuade public opinion to support their unpopular social agendas by limiting and censoring the information available that the public would need in order to make informed decisions on these matters*
- Thus, after a careful consideration of these facts as set forth, we now decide that it has been proven beyond a reasonable doubt that they lack good judgment and do not possess the moral and ethical values that we require of our government officials; They have shown to be a disgrace to our Nation and do not deserve the political stature that the People have awarded to them; Thus, We the People deem that swift and precise actions are now necessary and that they shall be conducted in a timely and well organized manner*

We, therefore, the People of the United States of America, will now take it upon ourselves to dissolve ourselves of our leadership and to remove the corruption that exists within our government. From this day forward, we shall impose a ONE TERM LIMIT upon all of our elected officials. This shall be accomplished by our refusal to re-elect ANY sitting incumbent that seeks an additional term in office. There shall be no more career politicians. We shall replace them with new and more desirable ONE TERM citizen legislators that truly represent the will of the people. They shall possess the morals and ethics that we require of our elected officials. Should it become evident that an elected official no longer represents the will of the People or does not possess the morals and ethics that is acceptable by the People, their term in office shall be terminated by any and all legal means available, and a replacement shall be seated.

As evidenced in The Declaration of Independence, it is with the guidance and approval of our founding fathers that we shall begin to cast out the corruption that has taken hold over the government of our beloved country. Remember what they told us in the Declaration Of Independence;

“Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government”.
— “it is their right, it is their duty, to throw off such Government, and to provide new guards for their future security.”

It is not just our Right – It is our Duty!

Please make at least 10 copies of “The Declaration of the People of the United States of America” and pass them around to your friends and relatives. Remember, the future security and prosperity of our nation is at risk, and it is up to every one of us to “Stand Up” and to help our country in her hour of need!
